

Continuous Rafter Tray

easy-trim[®] Ventilation

Description

The Easy-Trim Continuous Rafter Tray has been designed with curved shapes on the ribs, to provide additional strength and guarantee the ventilation of the roof space remains unobstructed. The Continuous Rafter Trays when installed ensures a consistent flow of air into the roof space and eliminates the possibility of condensation.

Benefits

- Universal rafter centre fitting capabilities
- Flexible, quick and easy to install
- Suitable for new builds and refurbishment projects on roof pitches over 12.5°
- Highly durable light weight rolls
- Suitable for rafter spacing between 300 - 600mm centres

Material

Black PVC

Performance

- Provides ventilation in accordance with the requirements of NHBC, BS 5250 and Building Regulations Document C2.
- Provides the insulation from obstructing ventilation and provide 25mm per metre clear air gap. Designed to fit common rafter centres of 400mm, 450mm and 600mm.
- Suitable for roof pitches of 15° or greater. The installer should select the size of tray to ensure it will fully restrain the thickness of insulation on the roof.
